

Xerox® EX 4100 Print Server Powered by Fiery® v2.0

SPECIFICATIONS

Achieve efficiency through automation with the Xerox® EX 4100 Print Server for the Xerox® Versant® 4100 Press.

BUILT-IN PRINT INTELLIGENCE

Fiery JobExpert analyses files and dynamically chooses the optimal print settings. So anyone can print jobs correctly – no expert knowledge required.

Xerox® PredictPrint® Media Manager Software features cloud-based artificial intelligence that automatically optimises the press based on what you put in the drawer – with no need to manually adjust critical quality settings.

Easy Vitals for the Xerox® Versant® 4100 Press constantly compares the current press state with the recommended state to ensure the press is operating within the correct tolerances.

ACCURATE, CONSISTENT COLOUR

Fiery Edge technology gets the most precise and stunning results from Fiery Driven printers. It achieves the best-possible gamut for both spot and process colour reproduction.

With Fiery Spot-On and Fiery TrueBrand, you can ensure accurate spot colours on all job types.

Fiery Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver stunning, smooth gradients that will delight your customers by printing with the true appearance designers intended.

POWER TO THE OPERATOR

Gain complete control of how and when jobs print. Job Groups makes it easy to print a group of jobs in a specific order or group jobs together for multi-job makeready using Fiery Impose-Compose. With Fiery Print Scheduler, it's a breeze to schedule jobs to best align with daily production demands.

Fiery Preflight provides basic preflight checks to help spot file problems before printing.
